

UPSA & EUROPE

UPSA OBTAINS AN EXCELLENT RATING FROM THE EUROPEAN COMMISSION FOR ITS APPLICATION TO THE NEW ERASMUS PROGRAMME 2021-2027

With the start of a new Erasmus framework programme, all the European institutions needed to submit an application to the European Commission in order to receive the approval to participate in this new framework programme. The application could be approved or denied.

The European Commission assessed the application submitted by UPSA as excellent. This assessment allows us to apply for projects and funds in the new Erasmus 2021-2027 programme.

NEW CALL: ERASMUS KA103 SCHOLARSHIPS FOR TEACHING AND ADMINISTRATIVE STAFF

Cofinanciado por el
programa Erasmus+
de la Unión Europea

The Direction of International Relations opens the application period for Erasmus KA103 scholarships for teaching and administrative staff of UPSA.

These scholarships give academic and administrative staff of UPSA the possibility to carry out a teaching or training mobility in a Higher Education Institution in Europe.

UPSA IS GRANTED WITH ERASMUS SANTANDER SCHOLARSHIPS FOR STUDENTS

The Direction of International Relations will have Erasmus Santander scholarships, provided through the programme Santander Universidades.

These are a complementary grant to the Erasmus scholarship. The beneficiaries of the Erasmus Santander scholarships are students who will carry out an Erasmus mobility during the academic year 2021-2022.

“ERASMUS DAYS: MEET THE MOVING MINDS” Webinar: Leuven, October 15th and 16th, 2020.

Ana López Arias y Gudrun Meir, from the Direction of International Relations of UPSA, participated in the webinar “Erasmus Days: Meet the Moving Minds”, organized by the University of Applied Sciences-UC Leuven-Limburg.

During the event, the following topics were discussed: mobility programmes, short academic programmes for students and teachers, development and management of the European Universities project, Erasmus+ KA2 projects: Exchange of experiences and partner search opportunities.

UPSA PARTICIPATES IN THE WORKING MEETING OF THE EUROPEAN RESEARCH PROJECT JEAN MONNET
