*Fifteen years of the review ‘Familia’ (1990-2005): Chronology, authors, abstracts, documentation and bibliographies*

The Higher Institute of Family Sciences and the Centre for Family Orientation of the Pontifical University of Salamanca dedicates this issue of the review ‘Familia’ to a compilation, in index form, of the titles, authors, abstracts, documents and bibliographies which have been published in the last fifteen years in this review. The large number of collaborators and the great variety of themes expressed in it justify the dedication of the first issue of 2006 to demonstrating the richness of studies and materials which contribute to and delineate the field of ‘Family Sciences’.
